

Client completion list

2023 NFSA Annual Seminar, May 3-5, 2023

Material Handling Form (MHA) aka Bill of Lading (BOL)

Lily will need to complete the BOL at the end of the dismantle and hand it in to the service desk no later than 6:00 PM. This is completed at the end of dismantle.

Shipping Labels

Shipping labels have been requested from show services (6 for each shipment). There are two planned shipments (one to Reliable and one to the NFPA advance warehouse). In addition to the shipping labels, there are show advance warehouse labels that must be placed on the valve display crate and the ESFR crate. We also were granted special permission from Freeman to have the show freight for NFPA deliver early to the advance warehouse in Las Vegas. Therefore, I included a copy of the letter granting this permission and placed it in the show book. When you tape the advance warehouse labels to the crate, please tape a copy of this letter next to each label. A tape gun and tape has been supplied in the shipment to the show (located on skid).
